Before the Clerk can issue the Abstracts, you would have to go through the docket, and where ever you see a Consent to Join form was filed, you have to add that party as a plaintiff on the date that it was filed, which should have been done when they were filed. You have to add all of the parties to the Docket, then e-file new abstracts with all of the Parties listed, you can add an addendum sheet to the back after you have ran out of room on the first page, you need just put the parties names as to who it is in favor of, then add C/O with the attorney information.
